OXCART Suppliers Agenda for 21 January Meeting

I. GENERAL PROGRAM REVIEW:

- 25X1A
- A. Introductory remarks by Mr. R. M. Bissell.
 - B. Brief broad progress-status reports and review of schedules, excluding details to be discussed in separate technical meetings: Lockheed, Pratt & Whitney, [REDACTED] Perkin-Elmer and Firewel.
 - C. Configuration freeze status.
 - D. Decisions concerning major systems or sub-systems:
 - 1. Air conditioning
 - 2. Autopilot
 - 3. Inertial Guidance System
 - 4. Ejector
 - 5. Gear-box and drive-shaft
 - E. Review requirements:
 - 1. Number of major items, systems or sub-systems to be procured: Aircraft and components, engines, cameras, inertial guidance systems, autopilots
 - 2. Communications
 - 3. Aircraft instrumentation
 - 4. Ferret Systems: System VI
 - 5. High Resolution Radar
 - F. Operational Concept:

Lockheed review of status of range, geographic coverage, re-fueling, and tanker problems.
 - G. Human Factors, Pilot Environment and Personal Equipment:

25X1A

[REDACTED] remarks on:
Environment of Cockpit

(3) Pilot selection, training and evaluation

II. TECHNICAL DISCUSSION GROUP MEETINGS:

A. Airframe and Related Coordination Problems:

1. Review significant tests, general design and configuration freeze.
2. Review engine ejector design and fabrication.
3. Review components in the [REDACTED] aircraft which will qualify for [REDACTED] performance and how close to [REDACTED] are other items or components.
4. Status special materials.
5. Spares and ground handling equipment requirements.
6. Material deliveries and problems.
7. Review proposal and costs to carry out a destruction test on the final configuration to be flown.
8. Presentation of revised cost proposal by Lockheed.

B. Power Plant and Related Matters:

1. Brief review of revised engine specification.
2. Review gear-box and drive-shaft design and fabrication.
3. Review proposal concerning fuel additive and recommended system design.
4. Spares and ground handling requirements.

C. Pilot Environment and Personal Equipment:

Fireweel review of requirements and schedule.

D. Camera:

1. Perkin-Elmer: supplementary review, if deemed necessary.
2. [REDACTED] review status.
